SKILLS

React | JavaScript | HTML | CSS | MongoDB | Node | Express | Python | C

PROJECTS

[CineView](#): React | Express | Node | Postgres

[GitHub](#)

An app designed to let users find reviews on movies and write those reviews if a premium

- Implemented an authentication flow that allowed users to login using a third party.
- Integrated search functionality so users have the ability to search a movie library for movies to write reviews on.
- Designed and implemented landing page hero element so that users had a clear call-to-action to search for movies to read reviews on.

[Lambda Notes](#): React | Express | Node | MongoDB

[GitHub](#)

An app that allows anyone to read, create, update or delete a note.
